

TELL CONGRESS to Leave the Credit Union Tax Status Alone!

Unlike banks, credit unions exist to serve their members – like you! Now banks and some politicians in Washington are talking about taxing credit unions.

Since credit unions are not-for-profit, new taxes on credit unions would directly hurt credit union members like you, middle-class working families-- the people whose interests Congress should be looking out for! As Congress considers tax reform, please urge them not to raise taxes on 96 million credit union members.

Please sign a “Don’t Tax My Credit Union” postcard for each one of our three Congressional Representatives and leave it with your teller. We will drop it in the mail for you!
